

Imperial Irrigation District

El Centro, California

Trainer, Electric System Operations

The Imperial Irrigation District (IID) Energy Department, located in southeastern California, has become the sixth largest consumer-owned utility in the state, and is widely regarded as an economic catalyst in the Imperial and Coachella Valleys where it serves more than 140,000 residential, commercial and industrial customers.

The Imperial Irrigation District is seeking a Trainer, Electric System Operations, to provide and oversee training and guidance to System and Trading Operator personnel regarding monitoring, operation and controlling tasks, and responsibilities of District generation, transmission and distribution system operations and associated facilities; developing training materials and maintaining records of test results.

Bachelor's degree in electrical engineering or related field and four years of directly training related work experience.

Current DMV driving record must accompany job application.

Apply online at www.iid.com/jobs. Resumes will not be accepted in lieu of mandatory online completion of District application; however resumes may be included as an attachment. Closing date May 9, 2012. Please cite ad when responding.
